RILOYD · APPLICANT CHECKLIST

Prototype & Seed Funding Programme

Use this checklist to prepare your idea submission. It summarizes the published programme criteria; it is not an application, approval or promise of funding.

01 / Eligibility

- ☐ Founders & innovators
  Individual innovators, aspiring founders, student founders and early-stage startups with an original idea or a product needing prototype development.

- ☐ India-focused ventures
  Be based in India or build a venture intended to operate in India. Founders should be 18 or older; younger applicants may apply through a parent or legal guardian where permitted.

- ☐ Early-stage ideas welcome
  Idea validation, proof of concept (PoC), prototype development and early-stage product improvement are eligible stages.

- ☐ No company required initially
  A registered company is not mandatory for initial idea submission. Identity, entity, tax and bank documents may be required before disbursement, as applicable.

- ☐ A clear next step
  Explain the problem, target users and a realistic plan for what you will build or test next.

- ☐ Your idea, your rights
  Own or have permission to use all submitted ideas, designs, software, content and other intellectual property.

- ☐ Responsible, practical idea
  Explain a meaningful problem, clear solution benefit and realistic prototype plan. The project must be lawful, safe and ethical; be available for screening, pitching and progress updates.

02 / Application preparation

- ☐ Idea and founder information
  Prepare your location, idea/startup name, sector, stage, problem, solution, target users and differentiator. Provide contact details only through the official application channel.

- ☐ Progress and prototype plan
  State your actual validation, PoC, prototype, pilot, users or revenue. Set a measurable milestone, timeline and itemised budget; confirm rights to submitted materials.

RILOYD · VIDEO & NEXT STEPS

03 / Your 60-second idea video

Maximum 60 seconds. MP4 preferred; vertical 9:16 recommended. A simple recording is sufficient—high production value is not required.

- ☐ 0–10 sec / Introduce yourself
  Founder name, startup or idea name and a one-line introduction.
- ☐ 10–25 sec / Explain the problem
  What problem are you solving, and who faces it?
- ☐ 25–45 sec / Present your solution
  Describe the solution and how it works.
- ☐ 45–60 sec / Your next milestone
  Explain what you want to build or validate next.
- ☐ Recording quality
  Use a clear voice, a steady frame and a simple background. Check the final duration and playback before submitting.
- ☐ Privacy and originality
  Use original content. Exclude trade secrets and private customer information. A separate promotional reel for Riloyd is not required; publicity requires separate permission.

04 / Before registration or payment

- ☐ Confirm the official channel
  Ask the Riloyd team for the programme-specific application/video submission link, current availability, final dates and payment instructions before paying. The programme-specific destination is not yet confirmed on the page.
- ☐ Registration fee
  ₹999/- +18% GST = ₹1,178.82. This is the separate Prototype & Seed Funding fee; payment does not guarantee selection, funding or an investor meeting.
- ☐ Shortlisted pitch
  Prepare an up-to-five-minute pitch covering the problem, solution, users, progress, business/adoption model, prototype budget and measurable milestones.

Funding conditions

Prototype support of ₹25,000–₹50,000 per selected idea is indicative and subject to selection, available budget, due diligence and written approval. Seed funding is independently evaluated; no fixed seed award is promised. Identity, entity, tax and bank documents may be required before disbursement as applicable.

Next step: visit the Prototype & Seed Funding page and use “Contact the team” to confirm the official application instructions. AI eligibility guidance is preliminary; the Riloyd team makes the final decision.
